Risks Arising from Combustion: Thermal decomposition or burning may produce carbon dioxide.

Protective Equipment: Self-contained breathing apparatus

Unusual Fire & Explosion Hazards: This material may burn but will not ignite readily. If container is not properly cooled, it can rupture in the heat of a fire. Vapors are heavier than air and can accumulate in low areas.

6. Accidental Release Measures

Small spill: Use absorbent material to wipe up spill and place in a sealed container for disposal. Clean spill area thoroughly.

Large spill: Collect spill with a non-combustible absorbent material and transfer to labeled container for disposal. Clean spill area thoroughly.

Personal Precautions, Protective Equipment and Emergency Procedures: Wear appropriate personal protective equipment to avoid direct contact. The material will burn but will not ignite readily. Keep all ignition sources away from the spill/release.

Environmental Precautions: Stop spill/release if it can be done safely. Product is insoluble in water, so prevent it from entering drains or water ways. Notify appropriate state and local authorities.

Method for clean up: Use absorbent materials such as sand, earth or vermiculite on land spills. Use absorbent booms or skimming devices on water spills.
